

Dear member,

Due to Corona 19, we can no longer organize conferences for the time being, which is why the Board of Directors has decided to offer one or more Webinars.

A word of explanation for the members who are not yet familiar with webinars.

A webinar is an online lecture. The word is a contraction of 'web' and 'seminar'. You will hear and see a speaker and his/her presentation. You can answer polls or ask questions via chat.

You watch a webinar on your own PC, laptop, tablet or smartphone. So you can do that anywhere, as long as you have a connection to the Internet.

A webinar takes place live.

The KGG opens its webinars to all interested parties.

Participation is free. Registration is necessary and must also be done for each webinar individually.

If you register, you will receive an email from us with a link with which you can register at the time of the webinar. You don't need to install a program or create an account.

Next webinar:

The Webinar " Flanders Maritime Laboratory" is on March 25, 2021 at 8 pm, hosted by;

Evert Lataire, Head of Maritime Technology Division, Faculty of Engineering and Architecture, Department of Civil Engineering.

You can register by email until March 20, 2021 to secretariat@gallois.be

With collegial regards,

The board of directors.
