COVERBEELD: BEXCO MARINE ROPE

Bexco designs, engineers and manufactures a full range of synthetic ropes for towing and mooring applications in the toughest of marine environments.

Bexco is lean, adept manufacturer capable of designing and constructing a made-to-measure marine mooring rope to match and beat anyone in the industry.

Safety, cost effectiveness and longevity are key for any rope solutions in the marine industry but vital for harbor towing systems. BEXCO offers complete towing solutions from mainlines to stretchers and pendants custom-made to function in the roughest of environments.

To complete your solution with our rope, BEXCO offers comprehensive range of hardware and accessories for both installation and spare parts maintenance.

INHOUD

WILL HARBOURS
BECOME
LOW EMISSION
ZONES,
JUST LIKE CITIES?

FIRE ON
CARGO VESSEL
AS HOT-WORK
PRECAUTIONS NOT
FULLY IMPLEMENTED
